

## Appendix B

Other preferred p53 polypeptides, fragments or derivatives consist of or comprise a sequence selected from the group consisting of RICSCPGRD (SEQ ID NO:23), KICSCPGRD (SEQ ID NO:24), RVCSCPGRD (SEQ ID NO:25), KVCSCPGRD (SEQ ID NO:26), RICTCPGRD (SEQ ID NO:27), KICTCPGRD (SEQ ID NO:28), RVCTCPGRD (SEQ ID NO:29), and KVCTCPGRD (SEQ ID NO:30) (i.e. sequences of the formula: (R or K)(I or V)C(S or T)CPGRD). Additional preferred p53 polypeptides, fragments or derivatives, consist of or comprise a sequence selected from the group consisting of FXCKNSC (SEQ ID NO:31) and FXCQNSC (SEQ ID NO:32), where X = any amino acid.
